**BOKER PLUS REALITY-BASED BLADE** – The knives on these pages are designed for both ends of the lifesaving spectrum... defense and rescue. After knife fighting expert Jim Wagner trained German top counterterrorism team, GSG9, in knife tactics, Boker requested that he design the ultimate tactical folding knife for police, military and security personnel. The end result was the Reality Based Blade.

The Jim Wagner reality-based blade design has tactical features that few others have. A gladius tip, a cutting kris curve, unique blood grooves, ergonomic finger grooves with anti-slip texturing, and a thumb guide slide. Also includes a clip kit

that can transfer a glass-breaker into a writing pen clip for undercover operations. Two lanyard holes are available for air, water or wilderness operations. With the blade in the retracted position, a secure high impact weapon is in the ready position. Solid stainless steel liners in addition to the FRN handles and solid lock back system provide all the security required when needed most.

**1 BOKER PLUS RBB SERRATED**  
With partially serrated blade.  
Item No. 01B0051 \$ 116.95

**2 BOKER PLUS RBB PLAIN**  
Plain edge blade.  
Item No. 01B0050 \$ 116.95

**3 BOKER PLUS RBB TRAINING TOOL** – In keeping with the reality-based concept of the Boker Plus RBB Series, this innovative training and color marking knife was developed in collaboration with Jim Wagner. The dimensions and shape of the RBB Training Tool match the successful Boker Plus Reality Based Recurve model to ensure realistic training. The "cutting edge" and the impact surface of the handle are equipped with a rugged, wear-resistant surface that can be marked with the included blue and red pens (commercial lipstick can be used as an alternative). All contact can therefore be clearly documented, and due to the different colors can also be directly associated with the edge, the spine, or the pommel of the training knife. This newly designed training tool facilitates a significantly more accurate analysis of training activities, and ensures reality-based and professional use. Blade length: 4". Overall length: 9". Weight: 2.6 oz. Item No. 02B0553T \$ 29.95

**4 BOKER PLUS KYDEX SHEATH FOR TRAINING TOOL** – This matching Kydex sheath is essential to make more effective use of the RBB training tool (above). Includes belt adapter. Item No. 09B0553 \$ 20.95

**5 BOKER PLUS URBAN SURVIVAL**  
A truly unique piece, from knife fighting expert Jim Wagner. With an overall length of 5 7/8" and a blade length of 1 5/8", the Urban Survival offers the ultimate in carrying comfort with its compact dimensions. The sleek construction and scalpel-like 440C stainless steel blade offer optimum control. Includes pocket clip, blade lifter, and interchangeable glass-breaker and false writing pen tip. Weight: 1.5 oz. Item No. 01B0047 \$ 51.95

**6 BOKER PLUS URBAN SURVIVAL CAMO** – Our popular Urban Survival model gets a new look! With an overall length of 5 7/8" and a blade length of 1 5/8", the Urban Survival offers the ultimate
