In a real knife attack the victim is usually seriously injured in the first second of the attack, and the fight is over within five seconds. You need to know how to survive. Jim Wagner literally has the best knife defense system in the world, and elite units all over the world use his techniques and training methods.

In this two-day course you will learn everything you need to know about defending yourself against criminal and terrorist knife attacks as well as combat with a knife if you are armed with a knife or edged weapon.

Knife Survival - Oct 20, 2012 \$150

You will learn Knife Avoidance: how to survive full speed and full contact, realistic, unpredictable, knife attacks. You will learn how to do self-triage and first aid for knife wounds. Jim Wagner will teach you that there are only 10 angles to attack the human body and 10 ways to block incoming slashes and stabs. You'll also learn how to do disarms in confined spaces.
